

**Call for Applications for the 1st Interdisciplinary Israel- Technical University of
Munich (TUM)
Summer School in the Alps
"How is Machine Learning Changing the Life Sciences?"**

The *1st Interdisciplinary Israel-TUM Summer School* is planned to take place **from September 3 – 8** at the beautiful and scenic [Spitzing Lake](#), in proximity to the Alps and the city of Munich and will allow participants to fully immerse in this joint and unique scientific experience.

How to Apply: Further information and application documents are available on the [website](#).

Application Deadline: 30 June 2017

Note: PhD candidates participating in the summer school could be funded via the *Erasmus+ Staff Mobility Program for Training (STT)* between our two institutions and then there are no travel costs involved. For Erasmus+ funding, the usual process applies (in addition to the aforementioned application process for summer school participation).

For More Information: TUM Graduate School.
