

CERN Summer Student Program 2018

Deadline for applications: January 28th, 2018

Take part in the day-to-day work of multicultural and multidisciplinary research teams, work on interesting projects, attend first-class lectures, visit CERN facilities and participate in discussions and workshops with people who are leaders in their fields.

Duration of stay: 8-13 weeks (June/July – August/September, dates of stay to be indicated on the application form)

Working time: 40 hours/week

Report to be written by the end of stay

Participants will receive a living allowance

The program includes:

- A technical project
- 5 weeks Lecture Programme: 26th June - 27th July 2018 (mornings)
- Living allowance to cover the expenses of a single person in the Geneva area: 90 CHF/day (the allowance is net of tax)
- Travel allowance (at the end of your stay, to help cover the cost of your travel to/from Geneva)
- Membership of CERN's health insurance scheme (contribution already deducted from allowance)
- Assistance in finding accommodation on the CERN site or nearby

Eligibility:

- Your Bachelor or Master degree focuses on one of the following disciplines: Civil Engineering; Controls and Data Acquisition; Electricity; Electromechanics; Electronics; Health, Safety & Environment; Information Technologies; Materials Science & Surface Engineering; Mechanics; Physics.
- You are an undergraduate student and have completed, by summer 2018, **at least three years of full-time studies at university level** or you are expecting to graduate in the summer of attending (but not earlier than May 2018).
- You have not worked at CERN before with any other status (Technical Student, Trainee, User...) for more than 3 months.
- You have a good knowledge of English; knowledge of French would be an advantage

Deadline for applications: January 28th, 2018
