Proposal (max. 2 pages)

Please **clearly explain** the motivation for the joint activity including how the partners profit from this cooperation in the long term (joint publications, synergies, follow-up projects etc.). Activities should have clearly defined objectives and serve as catalysts for the development of new joint projects.

To measure the success of the project the following **outcomes** are expected and should be addressed in detail in the proposal:

- Submission of a proposal for further external funding towards the end of the project
- Joint publications
- Jointly supervised (doctoral) students

Please also attach **CVs from the project leaders at both** institutions.

Budget

The projects are jointly funded by FUB and HUJI. Please give details on the expected costs for the project and refer to the specific regulations of the respective institution. Please note that we do not pay honoraria for the applicants. Business trips in either direction have to be handled by the travel units of the respective institution which will determine the actual amount reimbursed.

Inclusion of researchers from another university or German non-university research institutions such as Max Planck Institutes, Helmholtz Centers, Leibniz Institutes, and Fraunhofer Institutes and others, is possible. However, such partners cannot profit from the funding and any additional costs have to be covered by the external partner.
